

Biosafety Action

Exposure to biohazards can happen in the following ways:

ABSORPTION
(through eyes, mucosa, and/or skin)

INGESTION
(through mouth)

INHALATION
(through nose and/or mouth)

**INJECTION
OR PUNCTURE WOUND**

How to protect yourself and others when using biohazards

Do:

- + Tie back long hair
- + Wear safety glasses (no contact lenses)
- + Wear gloves
- + Wear lab coat
- + Wear closed-toe shoes

Remember to always wash hands and decontaminate workspaces after all activities!

Don't:

- Touch personal items with contaminated gloves
- Create fine sprays with biohazards
- Bring food into work areas
- Bend, shear, and/or recap used needles
